

Physical environment tracking log

Use this tracking log to keep track of physical environment difficulties and/or improvements over time.

Date	Location	Communication partners	Difficulties and/or improvements	Notes
12/21/17	Restaurant off Main Street	Susan, my wife	Today I had a lot of trouble hearing Susan because of the background noise. Although our strategies helped, we had to leave early because of the noise.	Next time, I want to try to use a mini mic with my wife to try to hear her better in a noisy environment.
